

2017 Annual Report

July 1, 2016 — June 30, 2017

Serving the Commonwealth of Kentucky for more than 20 years

Our Mission

To promote resilience in all citizens of the Commonwealth following a disaster or critical incident through pre-incident preparedness training and post-incident reduction of disabling stress by recruiting, training, and maintaining a statewide credentialed team of regional response ready volunteers to provide critical incident stress management.

Our Vision

KCCRB will be an extensively recognized community resource that provides crisis intervention services and will be fully integrated into emergency response plans developed for the Commonwealth.

A Note To The Team

Deborah M. Arnold, Executive Director

KCCRT members are dedicated to making the world a better place for those impacted by critical incidents and disasters. However, team members quickly realize, difficult environments coupled with limited resources and lingering stigma of accepting support can lead to frustrating situations. It is extremely important to recognize the great efforts of all our KCCRT members no matter how big or small. KCCRT members have a real impact on the people and communities they serve and deserve to be recognized for their efforts. Often, KCCRT members receive no direct feedback or acknowledgment that the services they provided were beneficial to the recipient. In reality, there is no real way to measure the long term impact of the amazing services that are provided by KCCRT members. However in my tenure I have been told numerous individual stories from past recipients praising the services they have received and I assure you that you are making a difference.

The compassion that is shown by each of you to the people we serve is an inspiration. I've witnessed how our team treats everyone with respect and kindness, no matter what the situation is. We all know how stressful it can be for the people who find themselves in need of the services we provide, and your words and actions go a long way toward helping them navigate through a very difficult time and keep their dignity. I just want you to know that your work hasn't gone unnoticed.

Thank you for all that you do.

Deborah M. Arnold
